

Hi,

We wrote to you and our other neighbours a couple of weeks ago about the possibility of organising an upgrade to the broadband infrastructure in our area of Ball Hill.

We have received 37 replies, broken down as follows:

- 22 residents have said yes
- 6 SMEs have said yes
- 6 residents are interested but not certain
- 3 residents are not interested.

As stated previously we need 44 vouchers to be pledged for the project to go ahead. Consequently, we decided to send out a second letter, to residents that haven't replied, just in case the first letter has been overlooked or forgotten in the challenge that was the festive season last year.

If you are interested there is more information available on the following webpage:

<https://ballhillfibre.github.io>

Please have a look and if you are interested drop us an email to:

fibreinballhill@btinternet.com

If you are not interested apologies for disturbing you again. From this point forward we will only contact those who have shown an interest in the project by sending an email to the above address and leave all others in peace and quiet.

Take care, keep well and role on vaccinations for all.

Regards

Mike (on behalf of Alistair, Rupert and Mike)
